

Jerusalem American International School

---

(For grades 5-8)

Dear Middle School Parents,

In order for our Middle School students to build their digital literacy and prepare them for high school and beyond, we provide laptops for the students to use in school.

**The following items are also required for classes for the school year:**

- Flash drive
- Earphones or Headphones
- Printer access and reliable computer and internet access (at home)

All MS students will be given a JAIS school email address at the start of the year (if they do not have one already.) Their school address is their graduating year, first initial and last name @jerusalemais.org. (For example: Jenny Lee, graduating in 2014, would have the email address [2014jlee@jerusalemais.org](mailto:2014jlee@jerusalemais.org)). Students are expected to check their email accounts (and Google Classroom) frequently as some teachers will communicate in this manner often.

Please remember that the school does not take responsibility for the care, maintenance or loss of personal electronic devices.

If you have any questions or comments, please contact me.

Thank you,

Jill
